TB15 Black

The Travel Box portable compressor refrigerators can be used in many different applications: from leisure time to boating, from industrial vehicles to coaches for transporting small foodstuffs on journeys.

Travel Box portable compressor refrigerators range has been completely upgraded with new colours, materials and digital control panel, while maintaining the reliability and versatility that have made them an international best seller. Small on the outside but very spacious inside thanks to the brand new SECOP BD1.4 MICRO compressor. Made from top quality materials, TB15 has been designed to be installed even in the smallest spaces and to be easily transported thanks to its low weight. The new compressor makes this “mini” refrigerator incredibly performing, with very low power consumption.
